Policy Wording (extract)

1. Definitions

1.1 **Accident** means a sudden, unforeseen and involuntary event caused by external, violent and visible means, occurring during the Period of Cover.
1.2 **Confinement** means admission as a registered in-patient in a licensed hospital in Singapore or overseas, on the written advice of a registered medical practitioner.

2. Who is covered

2.1 The Insured Persons named in the Schedule. A Child is covered from 30 days of age until the policy anniversary following his or her 18th birthday.

3. Scope of cover

3.1 **Accident-only cover.** All benefits in this Policy, including Items B and C, are payable only where the Confinement or loss results solely and directly from an Accident and begins within 90 days of that Accident. Confinement due to illness or disease is not covered.

4. Benefit conditions

4.1 Item B is payable for each day of Confinement up to the maximum number of days shown in the Schedule for each Insured Person in each policy year.
4.2 **How days of confinement are counted.** Days are counted from the date and time of admission to the date and time of discharge shown on the hospital record. Each complete period of 24 consecutive hours counts as one day. Any remaining period of 12 hours or more counts as one further day; any remaining period of less than 12 hours is disregarded. A Confinement of less than 12 hours in total is not payable. Days are not counted by calendar date or by the number of nights.
4.3 Item C is payable only for the hours spent in an intensive care unit, counted in the same way as Clause 4.2.
4.4 For Items D and E, a **Compound fracture** means a fracture in which the broken bone breaks through the skin. All other fractures are Simple fractures. Hairline fractures and stress fractures are treated as Simple fractures.
